

FORENSIC DNA ANALYST

Sorenson Forensics is seeking applicants for the position of Forensic DNA Analyst to work in our Salt Lake City laboratory. Sorenson Forensics is a leading provider of casework and validation services for federal, state, and local crime laboratories and Officers of the Court in individual criminal cases. Candidates must have completed a comprehensive forensic DNA training program to include a range of samples typically encountered in forensic casework. Candidates will be asked to participate in our Validation Services product. Candidate must be willing to travel up to 15% of the time to a public crime laboratory for validation services assignment, assignments will typically last 2-4 weeks in a row. Candidates will be flown home or to any major city in the continental U.S. each weekend while on assignment.

REQUIRED:

- B.A. or B.S. degree in a biology, chemistry, or forensic science related area. College course work or classes covering the subject areas of: (a) biochemistry, (b) genetics, (c) molecular biology, and (d) college course work or training that covers the subject area of statistics and/or population genetics. (attach transcript)
- Qualified candidates must meet the FBI's Quality Assurance Standards for a technical analyst/examiner (Standard 5.3).
- Minimum 6 months experience working in a forensic DNA laboratory performing forensic casework, 2+ years preferred.

****ONLY LOCAL U.S. CANDIDATES WILL BE CONSIDERED****

We offer a full benefits package which includes Health and Dental insurance, paid vacation and sick time, 401(k) and more!

Qualified candidates may submit resumes, CV, college transcript and salary history to: jobs@sorensoncompanies.com. In order for your resume to be considered, please include FORENSIC DNA ANALYST in the subject line of your email.
